

# Asklepieion (ə-ˈskle-pe-on)

Asklepieion is a word derived from the name of Aesculapius, the Greek god of medicine and healing. Aesculapius was honored and worshipped throughout the Greek world by persons seeking the healing powers of the physician. Temples were erected in honor of Aesculapius near healing springs or high mountains. Those who worshipped him were known as Aesculapae. Therefore, the temples in his honor were known as Aesculapions (Asklepieions).

In the ancient city of Memphis, on the Nile River, there was a temple where people went for worship and for care. In our own city of Memphis, on the Mississippi River, people come to our Asklepieion for healing and care.

## UTHSC Celebrates 100 Years

Any organization reaching a 100th anniversary mandates a celebration. For UTHSC, knowing how far we have come and how much we have accomplished in our first century imparts a sense of pride mixed with a healthy measure of awe and appreciation. After an inauspicious beginning in a four-story building at 879 Madison Avenue (top right) in August 1911 – outfitted with used medical equipment from closed colleges – the University of Tennessee Health Science Center has grown into a statewide institution with international reach and impact.

Within a few years of our organization's founding, the country became embroiled in World War I, for which the Medical Units (UTHSC's original name) contributed faculty volunteers. During the Roaring Twenties, the campus expanded in terms of new buildings and programs, and then was severely challenged by the economic collapse of the Great Depression. In 1931, during the financial crisis, the state reduced all faculty, staff and teaching fellows' salaries by 19 percent.

The four-quarter system that O.W. Hyman, vice president of the campus at the time, adapted to the campus made health care education both affordable and flexible for students and others, such as football players and golfers in their off seasons. The faculty, led by Hyman and August Wittenborg, professor of Anatomy, and others made personal sacrifices to avoid the loss of the Medical Units.

With the onset of World War II, the campus expanded to fulfill its role in the war effort, and by war's end exploded with a new energy that was suppressed in the previous two decades. Advances included: Research that led to the recommendation of atabrine as a substitute for quinine to treat the "sludged blood" of malaria; The establishment of the first blood bank in the South; Publication of Campbell's Operative Orthopaedics, a standard-setting book in its field; and the first diathermy operation in the United States, which involved the controlled production of "deep heating" in the subcutaneous tissues, deep muscles and joints for therapeutic purposes. Thirteen UT graduates gave their lives in the war.

The '50s, '60s, and '70s were a golden age for the campus in Memphis as elsewhere in the country. Research that had begun before the war and much new research was enhanced by the public's acceptance of the power of science and the funding that seemed to flow from all directions.

UTHSC has matured into what it is today, an indispensable anchor in the fabric of an interwoven health care system – in Memphis, across Tennessee, throughout the Mid-South region and beyond. Over the years, UTHSC has built a network of partnerships that spur research, innovation and reinvestment in the Memphis community.

A centennial is a milestone in anyone's book, and our century has been filled with accomplishments by remarkable physicians, researchers and educators. If the past is prolog to the future, then ours will be a bright and promising one.

# The Imhotep Society

In 1980, the SGAEC established the Imhotep Society, a campus organization to recognize students who, because of their service and leadership, have significantly contributed to student life on this campus. It recognizes that many student leaders, in performing their functions and assignments, may have sacrificed high academic accomplishment and thus did not receive recognition through those organizations that traditionally honor students for high academic and clinical achievement. The society was named after the ancient Egyptian god of medicine Imhotep.

## The Imhotep Award

Pam Houston, director of Student Life/Special Events, was the recipient of the 2010 Imhotep award signifying outstanding service to students. Melaina Perry, 2009-2010 SGAEC president, presented the award.

# Excellence in Teaching Awards

One of the most prestigious awards a faculty member can win is the SGAEC Excellence in Teaching Award. The winning recipients are nominated by the students of the various colleges. Each year, two faculty members from each college receive awards (College of Social Work receives one award). The recipients are presented with a plaque, a \$2,500 stipend, and public recognition at the SGAEC Banquet, college convocations and commencement ceremonies.

# College of Dentistry Student Government Association

The College of Dentistry Student Government Association, or CoDSGA, serves as the collective voice of the students and functions as the local dental student government. It represents the dental college student body to the administration and faculty, dental profession, and the Memphis community. CoDSGA serves as a forum for students from each dental class to work together to promote changes for the betterment of the college.

The University of Tennessee College of Medicine Chattanooga (UTCOCM), partnering with Erlanger Health System, continues to grow in its role as the primary provider of health care and education in the southeast Tennessee region. The Chattanooga Medical College, part of a Grant College later renamed the University of Chattanooga, was opened in 1899. The current College of Medicine was established in 1973 as a branch campus of the main medical school in Memphis. It provides training for junior and senior medical students, as well as residency and fellowship programs.

Our 13 accredited residency and fellowship programs include:

- Emergency Medicine
- Family Medicine
- Internal Medicine
- Obstetrics and Gynecology
- Orthopaedic Surgery
- Pediatrics
- Plastic Surgery
- Surgery
- Transitional Year
- Geriatric Medicine Fellowship
- Surgical Critical Care Fellowship
- Vascular Surgery Fellowship
- Hospice/Palliative Care Fellowship
- Orthopaedic Trauma Surgery Fellowship (not seeking accreditation)

THE UNIVERSITY OF TENNESSEE HEALTH SCIENCE CENTER  
**COLLEGE of MEDICINE** **UT**  
CHATTANOOGA

UTCOCM encourages university and community investigators to collaborate and explore exciting new areas of health care innovation. Current initiatives include:

- ▶ Awarded CPAHY (Center for Physical Activity and Health in Youth) funds to support ongoing studies to prevent and treat diabetes and obesity
- ▶ Awarded funding to explore development of an orthopaedic nanofiber/antibiotic medical device with UT Chattanooga, UT Knoxville and E-Spin Technologies
- ▶ Stroke treatment in collaboration with the Erlanger Southeast Regional Stroke Center, southeast Tennessee's first and only accredited primary stroke center
- ▶ Research on high-risk, low birth-weight babies in collaboration with Regional Obstetrical Consultants
- ▶ Selection of the UTCOCM Medical Library to participate in the National Library of Medicine's "Value of Library and Information Service in Patient Care" study.

UTCOCM also partners with Erlanger Health Systems as a member of the Institute for Healthcare Improvement Open School Program.

The UTCOCM Office of Continuing Medical Education (CME) continues to serve as the statewide UT Health Science Center administrative office. This past year it received national accreditation with commendation from the Accreditation Council for Continuing Medical Education, which less than 10 percent of all providers receive. In addition to its statewide role, the office provided credit approval support and educational management to Chattanooga and Memphis departments, Erlanger Health System committees, and regional medical providers. Some of the past year's programs (both new and recurring) which exemplify the office's commitment to excellence include:

- ▶ Stroke Education Series in cooperation with the Southeast Regional Stroke Center (international audience)
- ▶ Risk Management Seminars in cooperation with State Volunteer Mutual Insurance Company (statewide audience)
- ▶ Annual Family Medicine Update and Addiction Medicine Conference (regional audience)
- ▶ Faculty Development Curriculum including monthly series and a retreat
- ▶ Ethics Quarterly in cooperation with Erlanger Health System Medical Ethics Committee
- ▶ Annual Research Compliance and Methods conferences

# Match Day

## March 17, 2011

Each year on the 3rd Thursday in March, medical students around the country gather to find out where they will spend the next phase of their training. The College of Medicine's 2011 Match Day Celebration was held at the beautiful Pink Palace Museum.

How did it get so late so soon?  
 It's night before it's afternoon.  
 December is here before it's June.  
 My goodness how the time has flown.  
 How did it get so late so soon?  
 - Dr. Seuss -

Congratulations, Class of 2011!

# Alpha Omega Alpha

**HONOR MEDICAL SOCIETY**  
 Beta Chapter  
**THE UNIVERSITY OF TENNESSEE**

**A**lpha Omega Alpha is the only national honor society in the world. Its reason for being can be expressed in a phrase: to recognize and perpetuate excellence in the medical profession. As stated in the society's constitution, "Alpha Omega Alpha is organized for educational purposes exclusively and not for profit, and its aims shall be the promotion of scholarship and research in medical schools, the encouragement of a high standard of character and conduct among medical students and graduates, and the recognition of high attainment in medical science, practice, and related fields." ΑΩΑ elects outstanding medical students, graduates, alumni, faculty, and honorary members to its ranks. The society's key is designed after the Manubrium Sterni. The letters ΑΩΑ, engraved on the key, represent not only the name of the honor society, but the essential words in its motto:

Αξιπς ὠφελειν τοις ὑλγουντας

**"To be worthy to serve the suffering"**

# Legislative Day 2011

MSN-CNL students explored current health policy issues and the political role of professional nurses, and acquired an in-depth understanding of the legislative process by attending Legislative Day on Capitol Hill in Nashville TN. Students met in groups with designated legislators to present a health policy issue brief. Pictured above are MSN-CNL students with Senators Jim Kyle Jr. and Brian Kelsey.

## *The Legacy The Future:*

*A Centennial Portrait of The University of Tennessee Health Science Center*

### **Commemorative Book Now on Sale**

Founded in 1911 at the heart of what is now the Memphis Medical Center, the University of Tennessee Health Science Center (UTHSC) is now in its centennial anniversary year -- 2011. Since its founding, UTHSC has educated and trained more than 53,000 health care professionals on campuses and in health care facilities across the state. UTHSC and its affiliated teaching hospitals provide more than one million days of inpatient services and more than two million outpatient visits annually.

The centennial book titled -- The Legacy The Future: A Centennial Portrait of The University of Tennessee Health Science Center -- contains beautiful photographs and insightful text that provide a snapshot of our past and present, as well as a glimpse of our future.

**Discounted Price: \$50** (plus tax)

Available in the UTHSC Bookstore  
930 Madison Ave., Plaza Level
