The Health Science Center

RADIOACTIVE DRUGS

Effective Date: October 7, 1997

All research activities involving the use of radioactive drugs by UT Memphis faculty, staff or students, or with the use of UT Memphis facilities must be reviewed and approved by the UT Memphis Radioactive Drug Research Committee prior to initiation of the work, and must be conducted in accordance with University policy and procedures, and applicable federal regulations, including regulations published in Title 21, Chapter 1, Part 361. It is the responsibility of the individual faculty member and department chair to ensure that all projects that require review are submitted to the Committee.

Investigators should note that studies conducted by UT investigators at the VAMC or other off campus sites may require approval by the radioactive drug committees at those sites *in addition to* the UT Memphis Radioactive Drug Research Committee.
